

## **Ultrasonic Cleaner| Ultrasonic Cleaning Machine**

**(BD Series )**

### **Product Description**

BD series ultrasonic cleaner has not only the cleaning function, but also the functions of extracting, emulsifying, accelerating dissolution, crushing and dispersing. Widely used in: machinery, electronics, plastics, instrumentation, environmental protection, medicine, packaging, military, aerospace, shipping, automotive and other industries manufacturing and maintenance cleaning; Cleaning of straws, suckers and utensils, degassing before chromatography, cleaning of medical instruments, medical materials and utensils; Cleaning of jewelry, jewelry, watches, precious metals, precious stones, COINS, glasses, etc.

### **Product Features**

1. Large TFT screen Display, digital display.
2. Working time countdown display.
3. Real time display the actual temperature in the cleaning tank
4. 1-99 minutes total working time setting
5. Equipped with a special stainless steel basket, flat cover.
6. Made of high quality stainless steel
7. The operation procedure of the instrument adopts the single-chip microcomputer software

**Technical Specification**

Model	Tank Size (L*W*H)	Volume (L)	Frequency (KHZ)	Power (W)	Time (min)	Rack	Drainage
BDSM-80	155·140·100	2	40	80	1-99	Yes	/
BDSM -100D	300·150·100	4.5	40	100	1-99	Yes	/
BDSM -120D	240·140·100	3	40	120	1-99	Yes	/
BDSM -120D	240·140·150	5	40	120	1-99	Yes	/
BDSM -3200D	300·155·150	6	40	180	1-99	Yes	/
BDSM -5200D	300·240·150	10	40	200	1-99	Yes	Yes
BDSM -5200D	300·240·150	10	40	250	1-99	Yes	Yes
BDSM -5200D	300·240·150	10	40	300	1-99	Yes	Yes
BDSM -4200D	300·240·200	14.4	40	400	1-99	Yes	Yes
BDSM 25-12D	500·300·150	22.5	40	500	1-99	Yes	Yes
BDSM 25-12D	500·300·150	22.5	40	600	1-99	Yes	Yes
BDSM-800D	500·300·200	30	40	800	1-99	Yes	Yes

## Application

Widely used in: machinery, electronics, plastics, instrumentation, environmental protection, medicine, packaging, military, aerospace, shipping, automotive and other industries manufacturing and maintenance cleaning; Cleaning of straws, suckers and utensils, degassing before chromatography, cleaning of medical instruments, medical materials and utensils; Cleaning of jewelry, jewelry, watches, precious metals, precious stones, COINS, glasses, etc.
